

# Solimar® Print Director™ Enterprise (SPDE)

## Output Selector Utility Module

### Overview

The Output Selector module provides automated routing of output files to any attached destination device or logical print queue based on input file attributes such as class, jobname, form, destination, size, page count, etc.

The Output Selector module acts as an intelligent gateway to all other output modules by dynamically routing output based on a set of selection rules.

### Technical Specifications

- Integrated with an easy to use GUI to reduce the number of windows required to manage job routing
- Provides access to any SPDE output module from a single process
- Uses SPDE Job Filters to define the job routing rules
- Routing rules can be prioritized
- Can send jobs to multiple logical print queues on a single printer

### Component

- Output Selector module software
- Included with Base System

## Solimar® Print Director™ Enterprise (SPDE)

### Enterprise Output Management Solution

The Solimar Print Director Enterprise is a client-server-based enterprise output management solution designed to improve the performance of production output processes and optimize management control.

Utilizing advanced technology, Solimar Print Director Enterprise combines multi-level security, remote administrator and operator access, event logging and notification, direct device connectivity capabilities, powerful job routing and tracking with industry-leading data stream transformations.

### About Solimar Systems, Inc.

Founded in 1991, Solimar Systems, Inc. is a leading developer of enterprise output management solutions for digital document creation, production and distribution. Installed in thousands of sites around the world, including nearly 50% of the Fortune 100, Solimar solutions satisfy a wide range of requirements by combining integrated connectivity, data stream transforms and optimizations, document re-engineering/repurposing and sophisticated print queue management with secure web-based document presentment, distribution and tracking.

Experts in legacy and modern data streams, Solimar solutions provide essential infrastructure to a variety of industries including insurance, financial services, banking, pharmaceutical, telecommunications, healthcare, government, education, retail, manufacturing, utilities, distribution and print service bureaus.
