

## Solimar® Print Director™ Enterprise (SPDE)

### PCL::Metacode Conversion Module

#### Overview

The feature-rich PCL::Metacode module enables printing PCL applications onto Xerox LPS printers by converting the print data and resources into Xerox Metacode at hundred of pages per minute. This can also be used in conjunction with other SPDE modules to seamlessly provide PCL conversions to IPDS, PDF, PostScript, and TIFF.

#### Technical Specifications

- Supports PCL applications from any platform
- Receives, converts, and prints PCL data simultaneously
- Emulates HP LaserJet II and III series printers
- Emulates HP Color DeskJet and Paintjet series printers
- Converts PCL 4, 5, and 5C to Xerox Metacode
- Converts PCL to Xerox electronic forms, fonts, and images
- Creates graphics sizes of 2" x 2" up to full-page Xerox IMGs
- Converts Intellifonts and TrueType fonts to Xerox FNTs
- Supports HPGL/2 line drawing and shaded/filled boxes
- Supports highlight color in text and images (PCL 5C)
- Supports color biasing (extracting a color from image)
- Dynamically converts and downloads resources in print stream
- Merges 32,000+ resources via PCL macros
- Supports six feed drawers and custom paper sizes
- Supports secondary fonts for using specific Xerox fonts in the print stream
- Supports the Xerox E13B MICR font instead of PCL MICR font
- The Xerox LPS graphic handling option is required for images in the print stream

#### Components

- PCL::Metacode module
- Solimar PCL Windows® drivers for 2000, NT, 98, 95, 3.1
- Font and form creation utilities
- Printer resident PCL fonts
- Xerox JSLs

## Solimar® Print Director™ Enterprise (SPDE)

### Enterprise Output Management Solution

The Solimar Print Director Enterprise is a client-server-based enterprise output management solution designed to improve the performance of production output processes and optimize management control.

Utilizing advanced technology, Solimar Print Director Enterprise combines multi-level security, remote administrator and operator access, event logging and notification, direct device connectivity capabilities, powerful job routing and tracking with industry-leading data stream transformations.

### About Solimar Systems, Inc.

Founded in 1991, Solimar Systems, Inc. is a leading developer of enterprise output management solutions for digital document creation, production and distribution. Installed in thousands of sites around the world, including nearly 40% of the Fortune 100, Solimar solutions satisfy a wide range of requirements by combining integrated connectivity, data stream transforms and optimizations, document re-engineering/repurposing and sophisticated print queue management with secure web-based document presentation, distribution and tracking.

Experts in legacy and modern data streams, Solimar solutions provide essential infrastructure to a variety of industries including insurance, financial services, banking, pharmaceutical, telecommunications, healthcare, government, education, retail, manufacturing, utilities, distribution and print service bureaus.
