

# Solimar® Print Director™ Enterprise (SPDE)

## Parallel Input/Output Connectivity Modules

### Overview

The Parallel input and output connectivity modules receive print streams from PCs or stand-alone devices and send data to printers via a high-speed buffered Parallel Centronics adapter.

### Technical Specifications

- Receives and sends data at high-speeds (buffered at conversion)
- Supports user defined time-out interval for end of job detection
- Supports up to four input or output parallel connections per print server
- Uses Solimar’s high-speed parallel adapter to receive and send data

### Components

- Parallel input module communication software
- Parallel output module communication software
- Parallel hardware:
  - Centronics adapter
  - 25-foot cable
- Modules are licensed separately

## Solimar® Print Director™ Enterprise (SPDE)

### Enterprise Output Management Solution

The Solimar Print Director Enterprise is a client-server-based enterprise output management solution designed to improve the performance of production output processes and optimize management control.

Utilizing advanced technology, Solimar Print Director Enterprise combines multi-level security, remote administrator and operator access, event logging and notification, direct device connectivity capabilities, powerful job routing and tracking with industry-leading data stream transformations.

### About Solimar Systems, Inc.

Founded in 1991, Solimar Systems, Inc. is a leading developer of enterprise output management solutions for digital document creation, production and distribution. Installed in thousands of sites around the world, including nearly 40% of the Fortune 100, Solimar solutions satisfy a wide range of requirements by combining integrated connectivity, data stream transforms and optimizations, document re-engineering/repurposing and sophisticated print queue management with secure web-based document presentation, distribution and tracking.

Experts in legacy and modern data streams, Solimar solutions provide essential infrastructure to a variety of industries including insurance, financial services, banking, pharmaceutical, telecommunications, healthcare, government, education, retail, manufacturing, utilities, distribution and print service bureaus.
