

Solimar® Print Director™ Enterprise (SPDE)

SCSI SDI Connectivity Module

Overview

The SCSI SDI module directly drives multiple Xerox LPS printers via the high-speed Shared Disk Interface (SDI). SDI enables high-speed printing of graphical data onto Xerox Metacode LPS production printers that support this offline interface.

Technical Specifications

- Drives print data to Xerox LPS at up to 10MB per second
- Many times faster than on-line BUS/TAG or offline tape
- Supports disk interleaved images (D-mode) for high-speed graphic processing
- Drives up to three printers via direct SCSI SDI interfaces
- Automates printer start commands based on job name
- Appends jobs together to reduce printer overhead
- Supports Xerox "print-on-the-fly" mode enabling jobs to print while processing
- Keeps or deletes processed jobs
- Use with XCHANGE::Metacode module for TIFF image HPIP emulation
- Uses 1GB processing on SCSI drives
- 15-foot SCSI repeaters are available, chain up to three
- Available on Xerox printer models: 4250, 4635, 4850, 4890, DP180, DP96, DP92C
- One module is needed per printer connection
- Printers require the Xerox DDI interface kit and a certain OS version installed

Components

- SCSI SDI module communication software
- SCSI SDI hardware:
 - SCSI adapter
 - Internal SCSI Xerox-formatted hard drive
- Xerox JSLs

Solimar® Print Director™ Enterprise (SPDE)

Enterprise Output Management Solution

The Solimar Print Director Enterprise is a client-server-based enterprise output management solution designed to improve the performance of production output processes and optimize management control.

Utilizing advanced technology, Solimar Print Director Enterprise combines multi-level security, remote administrator and operator access, event logging and notification, direct device connectivity capabilities, powerful job routing and tracking with industry-leading data stream transformations.

About Solimar Systems, Inc.

Founded in 1991, Solimar Systems, Inc. is a leading developer of enterprise output management solutions for digital document creation, production and distribution. Installed in thousands of sites around the world, including nearly 40% of the Fortune 100, Solimar solutions satisfy a wide range of requirements by combining integrated connectivity, data stream transforms and optimizations, document re-engineering/repurposing and sophisticated print queue management with secure web-based document presentation, distribution and tracking.

Experts in legacy and modern data streams, Solimar solutions provide essential infrastructure to a variety of industries including insurance, financial services, banking, pharmaceutical, telecommunications, healthcare, government, education, retail, manufacturing, utilities, distribution and print service bureaus.
