Professional Services Partner Delivers Print, Mail & eDelivery Expertise to Solimar Customers

360° Business Solutions—Tailored for Your Success

At Hansen360, a 360° approach is used to address business challenges by thoroughly analyzing every aspect: people, process, profitability, and sustainability, in addition to offering software and consultancy.

HANSEN 360

SOLIMAR BUSINESS PARTNER

Harmonize Your Print & Mail Factories with Chemistry™ Platform Solutions

The Solimar Chemistry platform provides workflow automation and factory visibility.

CHEMISTRY™
POWERED BY SOLIMAR

Chemistry's products are modular, scalable, off-the-shelf configurable for rapid onboarding.

SOLITRACK™
Database-driven output management system designed to manage, track and report on jobs through production workflows from onboarding to final delivery.

SOLIMAR® PRINT DIRECTOR ENTERPRISE
Output management solution combining integrated connectivity with fast, accurate print stream conversions and job routing & tracking capabilities.

READYPDF® PREPRESS SERVER™
Optimizes fonts, images, objects, colors and resources to allow PDF files to process more efficiently for production printing, ePresentment and archiving.

SECURE IPP PRINT SERVER™
Allows print job submission through a secure bi-directional channel for communicating with printers using encrypted pathways that help ensure your print data stays secure.

iCONVERT™
Powerful AFP transform engine that routes mainframe and AS/400 print reports directly to network and production PostScript printers, viewing stations and archive systems.

SOLFUSION™
Automates production tasks such as external processes & scripts, indexing PDF documents, and executing Rubika configurations.

RUBIKA®
Post-composition re-engineering solution to automate manual processes, enable postal savings, add value to documents, and dynamically modify print data.

SOLSEARCHER ENTERPRISE™
ePresentment & archive solution designed to index, store, search and retrieve large collections of transactional and scanned documents.

SOLIMAR® INDEXING TOOLS
Powerful PDF indexing tools to design, test and manage indexing templates for data extraction, accessibility tagging & redaction.

SOLSCRIPT™
Emulates and optimizes Xerox VIPP® software, extending the reach of VIPP applications to virtually all types and brands of production printers and archive systems.

DATA STREAM TRANSFORMS & OPTIMIZATION

SOLscript™
Transform Engine for VIPP® Environments

iCONVERT™
Transform Engine for AFP Environments

Secure IPP Print Server™
Encrypt Data and Documents at Rest and in Transit

Solimar® Print Director™ Enterprise (SPDE)
Transforms & Queue Management

AUTOMATED DATA INDEXING & RE-ENGINEERING

Hansen360 provides extensive services including: Solution Architecture, Engineering, Programming & Project Management tailored for commercial and in-house solutions

Solimar Systems Suite
Advanced workflow solutions for high-volume document processing and CCM

Custom Integrations
Customized Client Portals
Secure, scalable portals tailored to business needs

Quadient
Customer communication & document automation solutions

Custom Development
Custom Programming
Development expertise in .NET, PHP, C++, ensuring seamless software integrations

OpenText
Enterprise information management for document storage, compliance, and workflow optimization

Content Management
HTML Statement Rendering
Custom solutions for rendering dynamic statements and reports

Team Solimar Offers:

Online demos of our solution suite & capabilities

File testing of AFP, IPDS, Metacode, PCL, PDF, PostScript & VIPP®

On-site assessments & evaluation systems

CHEMISTRY POWERED BY SOLIMAR
Modular off-the-shelf configurable solutions with intuitive user interfaces

SOLIMAR UNIVERSITY ONLINE
24/7 on-demand training content.
