AUTOMATES • OPTIMIZES • SECURES
Your Production PDF Processes!

Combines & Reuses Resources
Reduce data stream complexity and file size which improves processing time and provides a more efficient file.

Embeds & Consolidates Fonts
Use font consolidation and subsetting to reduce the number of fonts and create a more streamlined PDF file.

Optimizes Color
Optimize the color for e-delivery or print with the appropriate color profile and device intent.

Optimizes Images
Optimize color, grayscale, and monochome images for the target device by using image conversion and downsampling.

Optimizes & Removes Objects
Remove object information such as annotations, metadata, document tags, bookmarks, comments and thumbnails.

Corrects PDF Structural Issues
Optimize content, objects and data structures, and flatten layer transparency to help correct structural issues.

Obfuscate Text for Data Security
Scramble the text in PDF files to keep data undecipherable and secure. Exclusion lists can be defined to maintain content.

Preflight Validation & Optimization Reporting
Resolves common preflight issues to ensure proper printing and provides detailed optimization data for the PDF file.

Contact us to arrange file testing of
AFP, IPDS, Metacode, PCL, PDF, PostScript® or VIPP®.
Request an onsite evaluation system—today!
